

3 RAINBOW FLATDECK HIGHBOYS (June 2014)

These good looking Canadian made trailers are well built with high grade structural steel. They are thicker steel than the competition. Black is standard color. The wiring is enclosed and protected. Standard equipment includes safety chains, 12k sidewind jacks (2 jacks on all triple and dually trailers), all-wheel electric brakes, break-away equipment (including battery), stake pockets, 7 prong plug D.O.T. approved lighting. Most importantly, Rainbow probably has the best warranty in the industry (five year structural warranty).

Express Trailers come with 1 part epoxy primer & enamel paint.
